QGIS Application - Bug report #16406
Expression builder: missing help for functions

2017-04-03 02:21 AM - Harrissou Santanna

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Expressions			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	24315	

Description

Some function in the Espression builder dialog do not have help exposed in the Help pane:

- groups like Array, Map and Composition groups (e.g., returned: function help for Arrays missing): the first two are not self-explanatory, especially when you are not used to database manipulation vocabulary
- some variables such as @qgis_locale, @qgis_short_version, @value do not have description (only the value is shown).
- Neither has the geometric make_triangle function.
