

QGIS Application - Feature request #16469

Copy Project/Composer Variables from one QGIS project to another

2017-04-25 09:01 PM - Brad Kanther

Status: Open	
Priority: Normal

Category: Project Loading/Saving	
Pull Request or Patch Supplied:	Resolution:
Easy fix?: No	Copied to github as #: 24378

Description

Project Variables and composer Variables are not easily transferred from one QGS project to another. Be good if it was possible to do this from the relevant areas they area created?

Be even better if this could be done as a batch operation on multiple QGS files!

Project Properties | Variables

Expression Variables

Variable	Value
▶ Global	
▼ Project	
<i>project_filename</i>	<i>TemplateBuilder.qgs</i>
<i>project_folder</i>	<i>B:/_STANDARDS/GQD5</i>
<i>project_path</i>	<i>B:/_STANDARDS/GQD5/TemplateBuilder.qgs</i>
<i>project_title</i>	
<i>01_ProjectNo</i>	

Import Variables from QGS/Template/File **Export Variables to multiple QGS Projects**
