

QGIS Application - Feature request #16478

Concave polygon: `max length of segment` option missing

2017-04-27 06:59 AM - Paolo Cavallini

Status:	Open	Resolution: Copied to github as #: 24387
Priority:	Normal	
Assignee:		
Category:	Processing/QGIS	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>I did not find a concave polygon tool that behaves as I (and I presume many others) expect: to me the parameter to choose is the max length of the segment, whereas the existing tools seem to allow the choice of the proportion of convex polygon covered.</p> <p>I have tried:</p> <ul style="list-style-type: none">- QGIS Concave Hull in Processing- Concave hull (k-nearest-neighbors) from plugin Concave Hull (this works differently, and has the useful option of creating multiple hulls based on a field)as well as:- PostGIS ST_ConcaveHull
