

QGIS Application - Bug report #16513

Create buffers - Python error

2017-05-03 08:41 PM - Luis Gustavo de Oliveira Paes Leme

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Python plugins	
Affected QGIS version:	2.18.7	Regression?: No
Operating System:	Windows 8.1	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 24419
Description		
I have a collection of points (.shp) and I need to create round buffers of 5km for each point, but when I click to create after setting it up it says there's a Python error:		
An error has occurred while executing Python code:		
ValueError: math domain error		
Traceback (most recent call last):

I am new to coding, so I don't know exactly what this means. Could someone please help me out? These buffers are essential.

- *Resolution set to invalid*
- *Status changed from Open to Closed*

mmqgis is a 3rd party plugin, not part of a QGIS default installation, you must report the issue to the author of the plugin. Cheers!
