

QGIS Application - Bug report #16560

regression: re-loading a project within the same session fails, removes all layers

2017-05-17 04:14 AM - Mathieu Pellerin - nIRV

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Project Loading/Saving	
Affected QGIS version:	master	Regression?: Yes
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 24462
Description This regression occurred within the last 24 hours (May 16-17, 2017). Re-loading a project (or loading a different project which shares same data sources as a currently opened project) within a same QGIS session fails to load layers, resulting in partial to totally blank project. Steps to reproduce <ol style="list-style-type: none">1. Open QGIS2. Load a project3. Without closing QGIS, re-load the same project4. Notice the absence of any layer, and the blank canvas :)		

Associated revisions

Revision 77cd7afa - 2017-05-31 08:51 AM - Mathieu Pellerin - nIRV

fix project re-load missing layers (fixes #16560)

History

#1 - 2017-05-17 06:20 AM - Mathieu Pellerin - nIRV

- Status changed from Open to Closed

Closing, issue appears to either be localized, or not at all linked to the last 24-hour changes. I'll re-open if I figure out what's happening here.

#2 - 2017-05-19 10:47 AM - Mathieu Pellerin - nIRV

- Status changed from Closed to Reopened

Re-opening, Matthias has been able to replicate regression.

I've made a small video showing the issue: <https://www.youtube.com/watch?v=6freJLe06fk>

#3 - 2017-05-19 10:51 AM - Mathieu Pellerin - nIRV

- File regression.mp4 added

Youtube decided the video was violating its community guidelines. Adding video as an attached mp4 here.

#4 - 2017-05-19 11:06 AM - Mathieu Pellerin - nIRV

Note: my initial estimated time of regression is wrong; I haven't been able to dissect a commit, but problem did emerge earlier than May 16.

#5 - 2017-05-21 07:53 AM - Mathieu Pellerin - nIRV

git bisect spoke out:

```
fe677040f8c31d4f6fb73489d7fec531166293e3 is the first bad commit
commit fe677040f8c31d4f6fb73489d7fec531166293e3
Author: Nyal Dawson <nyall.dawson@gmail.com>
Date: Fri May 5 21:27:37 2017 +1000
```

- Cleanup project closing
- ensure that layers are removed when clearing projects
 - ensure that project is cleared before destruction

#6 - 2017-05-31 08:51 AM - Mathieu Pellerin - nIRV

- % Done changed from 0 to 100
- Status changed from Reopened to Closed

Applied in changeset commit:qgis|77cd7afaaa391469eefee1037d61489db3eb9b14.
