QGIS Application - Bug report #16571
Edit Widget Properties dialog shrinks fields while resizing

2017-05-17 06:56 PM - Alexandre Neto

Status:	Closed			
Priority:	High			
Assignee:				
Category:	GUI			
Affected QGIS version:	2.18.7	**Regression?:**	Yes	
Operating System:	Linux ubuntu	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	24473	

Description

when editing field's widgets, for some type widgets if you resize the dialog, it will start shrinking widgets instead of stopping at the minimum size. You can try with Range, but there are more affected.

anim.gif

This doesn't happen in QGIS 2.14 and, because all dialogs have been redone, does not happen in master neither
