

QGIS Application - Bug report #16605

TauDEM MoveOutletsToStreams cannot find executable

2017-05-23 02:08 PM - Ross McDonald

Status:	Closed	
Priority:	Normal	
Assignee:	Alexander Bruy	
Category:	Processing/Core	
Affected QGIS version:	2.18.7	Regression?: No
Operating System:	Windows 7 x64	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: wontfix
Crashes QGIS or corrupts data:	No	Copied to github as #: 24505
Description		
<p>There is an error in the TauDEM algorithm "Move outlets to streams" where it cannot find the executable. The text file in the following locations needs to be edited:</p> <p>apps\qgis\python\plugins\processing\algs\taudem\description\single\moveoutletstostrm.txt apps\qgis\python\plugins\processing\algs\taudem\description\multi\moveoutletstostrm.txt</p> <p>Line 2 in each file - Instead of reading moveoutletstostrm it needs to be moveoutletstostreams so that it matches the executable name in the TauDEM installation. I had to edit that before the process would run.</p> <p>Windows 7 x64 2.18.7 x64 TauDEM 5.3.7 Microsoft MPI v8</p>

I see TauDEM is to removed from core to a separate provider in 3.0 (<https://github.com/qgis/QGIS-Documentation/issues/1619>). Will this still be a problem in 3.0?

#2 - 2017-05-29 11:17 AM - Alexander Bruy

This is not bug, in supported version of TauDEM this tool executable has name "moveoutletstostrm"

#3 - 2017-08-30 07:54 AM - Alexander Bruy

- Resolution set to wontfix
- Status changed from Open to Closed
