QGIS Application - Bug report #16621
qgis 2.18.8 can not load results from modeller processes

2017-05-26 12:13 AM - Claas Leiner

Status:	Closed		
Priority:	High		
Assignee:	Victor Olaya		
Category:	Processing/Modeller		
Affected QGIS version:	2.18.8	**Regression?:**	Yes
Operating System:	Linux Ubuntu 16.04	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	24521

Description

gis 2.18. 8 (Codeversion 6768c89) can not load results from modeller processes. I get an error message for my models in each case, that no files can be loaded. This applies to all my models.
In QGIS 2.18.7 it works. Even if I change "/usr/share/qgis/python/plugins/processing" with the directory from a 2.18.7 installation everything works.

Errormessage:
2017-05-25T23:24:24   2   Error loading result layer:
     Traceback (most recent call last):
       File "/usr/share/qgis/python/plugins/processing/gui/Postprocessing.py", line 75, in handleAlgorithmResults
         out.name))
       File "/usr/share/qgis/python/plugins/processing/tools/dataobjects.py", line 188, in load
         + '\nCheck the processing framework log to look for errors')
     RuntimeError: Could not load layer:
