

QGIS Application - Feature request #16659
Refresh feature count on re-enabling show feature count

2017-06-02 02:45 PM - Nikolay Lebedev

Status:	Open	Resolution: Copied to github as #: 24558
Priority:	Normal	
Assignee:		
Category:	Map Legend	
Pull Request or Patch supplied:		
Easy fix?:	No	
Description		
<p>When `show feature count` option is enabled in layer context menu feature counting happens only once. disabling and re-enabling this option happens fast, but shows cached feature count.</p> <p>If the data is being edited elsewhere (i.e. a layer from postgis db, edited by multiple users simultaneously), then disabling and re-enabling this option show old values.</p> <p>There is no way to recount features on demand. So it's not convenient at all.</p>
