QGIS Application - Feature request #16711
Canvas in Dockable / Fullscreen-able Widget

2017-06-14 07:13 AM - Steven Lutz

Status:	Feedback		
Priority:	Normal		
Assignee:	Steven Lutz		
Category:	Map Canvas		
Pull Request or Patch supplied:	No	**Resolution:**	
Easy fix?:	Yes	**Copied to github as #:**	24610

Description

It would be nice if the map canvas was able to be moved around like a widget.

It would also be nice if this map canvas widget was able to be expanded full screen on a second monitor leaving the main project / qgis application window for tools, attribute table, python console use etc.

Can we consider that the multi map view covers these needs? There's also in View menu "Toggle full screen mode" and "toggle panel visibility" options to maximize canvas extent
