

QGIS Application - Bug report #16724

tests/src/core/testqgsogcutils.cpp Port away from qt_qhash_seed which is going away in Qt 5.9

2017-06-19 05:16 PM - Bruno Friedmann

Status:	Feedback	
Priority:	Normal	
Assignee:		
Category:	Tests Suite	
Affected QGIS version:	master	Regression?: No
Operating System:	openSUSE Tumbleweed	Easy fix?: Yes
Pull Request or Patch applied:	Yes	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 24623
Description		
<p>tests/src/core/testqgsogcutils.cpp doesn't build with QT59</p> <p>see https://codereview.qt-project.org/188474</p> <p>qSetGlobalQHashSeed exists since Qt 5.6, but this project seems to require 5.3, so I added a Qt version ifdef.</p> <p>Thanks to David Faure and Fabian Vogt for pointers.</p>
