QGIS Application - Feature request #16827
Duplicate record function with related features

2017-07-10 11:55 AM - Andreas Neumann

Status:	Closed			
Priority:	Normal			
Assignee:	Matthias Kuhn			
Category:	Forms			
Pull Request or Patch supplied:	No		**Resolution:**	fixed/implemented
Easy fix?:	No		**Copied to github as #:**	24726

Description

This is an extended version of the feature request #15589

In addition to the normal duplicate record function, there should be an additional action called "duplicate records with related features". All linked entries in related tables are also duplicated and linked with the main feature that was duplicated. Foreign keys in related tables need to point to the primary key of the new duplicated feature.
