<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 24747
<b>Description</b>		
<p>Is it possible to find QGIS 3.0 development builds as binaries for MacOS (like it used to be on <a href="http://qgis.dakotacarto.com">http://qgis.dakotacarto.com</a>)? I would like to try and give you feedback about new version QGIS but building from source is to much time consuming to incorporate it in my workflow.</p>
