It would be great if it was possible to move a layer to the top of the layer panel by:

- 1. Right clicking on the layer that you want to move to the top in the layer panel*
- 2. Click on 'Move to Top' (or maybe 'Move to Top of Layer Panel').*

Result: The layer is not the first layer in the Layer Panel.

This 'Move to Top'-option could be placed under or over the 'Move to Top-level' - and act it the same away but instead move the layer to the top of the Layer panel.

It would be nice to have this feature when you have a lot of layers in your Layer Panel - then it takes a bit of time to move the layer to the top.

Illustration of the idea attached to this issue.

It seems a good idea. It would be useful if there are a lot of layers.

#2 - 2018-03-25 10:57 PM - Mie Winstrup

The function is implemented in pull request [//github.com/qgis/QGIS/pull/6671](https://github.com/qgis/QGIS/pull/6671) and waiting for hopefully approval in QGIS 3 :)

#3 - 2018-04-05 04:22 PM - Mie Winstrup

- Status changed from Open to Closed

Implemented in nightly build 3.1.33
