

QGIS Application - Feature request #16946

Split Line Features

2017-08-01 09:23 AM - srinivas r

Status:	Open	Resolution: Copied to github as #: 24845
Priority:	High	
Assignee:		
Category:	Vectors	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
Split all line features in line layer at specific distance, Distance was provided by the user.		
if the split will be from begin or end of the line also decide by the user only.		

History

#1 - 2017-08-01 11:36 AM - Giovanni Manghi

The split lines with points tool is also much needed, but is less obvious than it seems (ex: with PostGIS you can do it, but points need to be snapped on the lines and then a vertex needs to be added where the point is snapped).

HI Giovanni Manghi thanks for your reply,
I am new to qgis python,
I want to know how to do it in qgis python?
