QGIS Application - Bug report #16998
Misbehavior of Adv. Digitizing + Snapping tools

2017-08-10 02:45 PM - Andre Jesus

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Digitising			
Affected QGIS version:	2.18.11	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:		**Copied to github as #:**	24897	

Description

When using fixed distance in Advanced Digitizing tool and use a snapping vertice as reference point, it looses the fixed distance value and generate the full length geometry to the snapping point.

I just tried on QGIS 3.4.4 with new profile, I can not reproduce the problem, everything works fine.
Therefore I close issues
