<b>Description</b>		
<p>Hello,</p> <p>I have installed QGIS 2.18.11 on Ubuntu 16.04. (Code-version c6d8827) with ubuntu-gis-dependencies. QGIS runs with gdal 2.2.1.</p> <p>QGIS 2.18.11 with gdal 2.1.3 reads jp2-Files very slow.</p> <p>QGIS 2.18.1 with gdal 2.2.1 reads Jp2 files quickly, but only a black rectangle is visible.</p> <p>The GDAL-Driver is JP2OpenJPEG. A other Driver for jp2 is not available on Ubuntu-Linux.</p> <p>Greetings Claas</p>
