Hi,

did you tested with the osgeo4w installer, using also later versions like 1.1 or 1.2?

Please give it a try and report back, or post the raster file so we can do further investigation.

#2 - 2009-08-04 12:52 PM - Giovanni Manghi

- Resolution set to fixed

- Status changed from Open to Closed

Hi,

I just tested a Idrisi .rst DEM and it was imported without problems
in GRASS. Used qgis >= 1.1 under both windows and linux running against GDAL 1.6.1

Closing, reopen if necessary.
