

# QGIS Application - Bug report #17071

## Opening NMEA files in Qgis

2017-08-25 11:40 AM - Frédéric PONS

<b>Status:</b> Closed	
<b>Priority:</b> Normal	
<b>Assignee:</b>	
<b>Category:</b> Python plugins	
<b>Affected QGIS version:</b> 2.18.12	<b>Regression?:</b> No
<b>Operating System:</b> Windows 7	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> up/downstream
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 24970
<b>Description</b>	
Hi	
Some new NMEA frame provided by smartphone cannot be readed by the plugin GPS in Qgis because GPSBabel version is only 1.4.4. The GPS babel version 1.5.4 (not in plugin Qgis) enables to open these files.	
I copy/paste the folder of GPSbabel 1.5.4 in the Qgis\bin folder and all is ok.	
If the plugin can be update.	
Thanks Frédéric	

### History

#### #1 - 2017-08-25 11:41 AM - Frédéric PONS

- File *sonybug.txt* added
- File *samsungok.txt* added

#### #2 - 2017-08-25 12:03 PM - Regis Haubourg

- Resolution set to *up/downstream*

Then it's more a osgeo4w package upgrade problem than a qgis one. If confirmed, please close that ticket and open one here:
