<b>Description</b>		
1.) Open the print composer		
2.) Click Add a new map		
3.) Span the map from the upper right corner or from the lower right corner in direction left		
Problem: You don't see the map object and if you make a double click in the area where you added the map QGIS crashes with the following message:		
Warning: QGraphicsScene::removeItem: item 0x8727bf0's scene (0x18) is different from this scene (0x8492918)		
Program received signal SIGSEGV, Segmentation fault.
