

QGIS Application - Bug report #17182

Save Graduated Style to MSSQL Database Fails

2017-09-22 03:57 AM - Martin Bain

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Data Provider/MSSQL		
Affected QGIS version:	2.18.11	Regression?:	No
Operating System:	Win7 32 bit	Easy fix?:	No
Pull Request or Patch supplied:	No	Resolution:	duplicate
Crashes QGIS or corrupts data:	No	Copied to github as #:	25081
Description			
<p>I tried to save a Graduated Style to the database but it failed with the message box:</p> <p>"Unable to save layer style. It's not possible to insert a new record into the style table. Maybe this is due to table permissions. Please contact your database administrator."</p> <p>I converted it to a rule based style and it saved without error.</p> <p>I have been happily saving styles to the database for a while now and it always works but I think this is the first time I have tried to save a Graduated Style.</p> <p>The offending style files are attached.</p> <p>Thank you.</p>
