QGIS Application - Bug report #17200
Turning Multi edit mode off does not go back to table view

2017-09-26 12:04 PM - Alexandre Neto

Status:	Feedback			
Priority:	Normal			
Assignee:				
Category:	Attribute table			
Affected QGIS version:	master	Regression?:	No
Operating System:		Easy fix?:	No
Pull Request or Patch supplied:		Resolution:	
Crashes QGIS or corrupts data:	No	Copied to github as #:	25099

Description

In the attribute table, If the user starts a multi edit mode session while in table view, when he turns it off, the attribute table will end up in Form view instead.

I think the right UX behaviour would be for the multi edit mode to remember the view mode the user was using before.

This affects both master and QGIS 2.18.
