

QGIS Application - Bug report #17204

Edit widget properties - Range on a Integer64 - slider and dial doesn't work properly

2017-09-26 10:18 PM - Jérémie Prud'homme

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	Edit widget	
Affected QGIS version:	2.18.13	Regression?: No
Operating System:	Windows, macOS 10.12.6	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: no timely feedback
Crashes QGIS or corrupts data:	No	Copied to github as #: 25103
Description		
<p>Hello,</p> <p>I tried setting a qlonglong (integer64) field on a Range type (via Layer properties > Fields > Edit widget properties) and choosing either a slider or a dial for the type of edit widget.</p> <p>When I create a new point/line/polygon I got the slider or dial on the "feature attribute" window that opens but moving the slider/dial doesn't change the value for the field.</p> <p>It works with other field types (integer, real).</p>		

History

#1 - 2017-09-27 09:49 AM - Giovanni Manghi

- Category changed from Editing to Edit widget

#2 - 2019-01-21 12:34 AM - Jürgen Fischer

- Status changed from Open to Feedback

Please test with QGIS 3.4 - QGIS 2.18 reached it's end of life.

#3 - 2019-02-24 01:49 AM - Giovanni Manghi

- Resolution set to no timely feedback

- Status changed from Feedback to Closed
