

QGIS Application - Bug report #17208

some items on Project Properties|General aren't available to change until the CRS tab is activated

2017-09-27 09:00 PM - Steven Mizuno

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:	Windows 8.1 x64	Easy fix?: No
Pull Request or Patch supplied:	Yes	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 25107
Description Specifically, the Measurements (Ellipsoid, Units for Distance / Area) and Coordinate display (Display coordinates using) items are disabled until the CRS tab is entered, then return to General. This occurs every time the Project Properties is called. It is confusing as the items initially show values different from the values set after the CRS tab has been activated.
