Description		
<p>In the German locale, "Map tips" is translated to "Kartenhinweise".</p> <p>But in layer properties, Display section, the heading is "Map-Tippanzeigetext".</p> <p>It would be nice if a better translation could be used here, like "Text für Kartenhinweise". This would make it more clear for users that this is the place to change the output for "Kartenhinweise".</p> <p>This might apply for other languages as well.</p>
