

QGIS Application - Bug report #17248

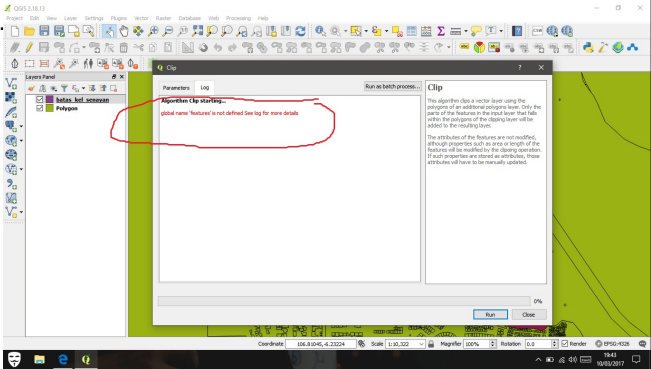

Can't clip a vector polygon in qgis 2.18.19

2017-10-05 06:45 AM - Martin M. Baihaqi

Status:	Closed	Regression?:	No
Priority:	High	Easy fix?:	No
Assignee:	Victor Olaya	Resolution:	duplicate
Category:	Processing/Core	Copied to github as #:	25146
Affected QGIS version:	master		
Operating System:	Windows 10		
Pull Request or Patch supplied:	no		
Crashes QGIS or corrupts data:	no		

Description

I want to clip a vector polygon with a boundary vector polygon but the process is failing. I am getting the error, "global name 'features' is not defined See log for more details". I don't know what is causing this error.
