

QGIS Application - Feature request #1725

snapping and search radius in options dialog, digitizing tab

2009-06-09 09:33 AM - Otto Dassau

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Digitising	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 11785
Description		
<p>It would be nice if it becomes possible to define larger values as "default snapping tolerance in layer units" and "search radius for vertex edits in layer units".</p> <p>At the moment it is limited to the value 1000 and sometimes the value of 1000m needs a lot of zooming for small scaled maps.</p> <p>thanks a lot</p> <p>Otto</p>
