

QGIS Application - Feature request #17275

Merge different progress bars

2017-10-13 11:17 AM - Richard Duivenvoorde

Status:	Open	Resolution: Copied to github as #: 25173
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
Having some long running task, I had at a certain moment 3 progress bars in view, see screenshot :-)		
Would be cool if we could merge the older one(s?) in the very nice new one (the one you can stop threads in etc, the little one).		
Not VERY important, but looking at UI thingies at the moment, and it eats needed space I think...
