This is a feature, not a bug.

BTW, I'm strongly considering to revert the commit that removed the "Close" button and rename existing buttons to:

[Add] [Add and Close] [Close]

Where:

- Add: add the layer(s) to the canvas
- Add & Close: as "Add" plus close the dialog
- Close: just close the dialog

In my opinion [Add] and [Close] is enough. But do as you (or others) prefer.

Thanks for fixing this feature ;-)
