QGIS Application - Bug report #17355
Circular string (and new derived map tools) doesn't honor rubberband line width of digitizing settings

2017-10-30 07:05 AM - Loïc BARTOLETTI

Status:	Closed			
Priority:	Normal			
Assignee:	Loïc BARTOLETTI			
Category:	Digitising			
Affected QGIS version:	2.18.13	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	25252	

Description

You can reproduce applying a big width, you will see only a tiny rubberband for this tools.

Reproduce for Cricular string on 2.18 and master
and master for new tools (circle, square, ellipse, regular polygon)
