

QGIS Application - Feature request #17356

Filter on DBManager tree

2017-10-30 08:57 AM - Alain FERRATON

Status:	Open	Resolution: Copied to github as #: 25253
Priority:	Normal	
Assignee:		
Category:	DB Manager	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
it would be very nice to be able to filter the DBmanager tree,		
as you can filter objects with the search options in the PostGIS table addition box (filter for base, schema, table, comment, type, geometry column, entity id, srid,...).

+1 I face the same need for various customers. The same applies to the browser(s) panel(s). The default search should be case and accent insensitive too.
