

QGIS Application - Bug report #17373

Some missing dependencies before compilation QGIS in Ubuntu Artful

2017-11-01 03:24 PM - Jorge Useche

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Build/Install	
Affected QGIS version:	master	Regression?: No
Operating System:	Ubuntu 17.10 Artful Aardvark	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 25270
Description		
Hello, can anyone add this dependencies in official install steps? https://github.com/qgis/QGIS/blob/master/INSTALL#L186 I'm compile QGIS 3 (last commit 8afbaebd2107eb5f1068de3c5fcd9860e2806333) from github repository, and I'm used default configuration for compilation. I've install some python3 missing dependencies in qgis execution. sudo apt install python3-owslib python3-jinja2 python3-pygments If is needed I can make a Pull Request in github adding this dependencies.
