

QGIS Application - Feature request #17394

Add other anchors to non-fixed annotations

2017-11-03 01:37 PM - Georg Wicke

Status:	Open	Resolution: Copied to github as #: 25291
Priority:	Normal	
Assignee:		
Category:	Map Canvas	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>In the status quo, annotations can be set to have no fixed map position. Then they are always displayed in the same location, regardless of the zooming and panning.</p> <p>However, they will then always be positioned relative to the top-left corner of the map canvas.</p> <p>Possible applications would be displaying location-independent information about the map on the canvas, e. g. projection, general location, data source etc.</p> <p>See also #17393</p>
