QGIS Application - Bug report #17407
represent_value expression fails

2017-11-06 03:16 PM - Andreas Neumann

Status:	Closed			
Priority:	Normal			
Assignee:	Matthias Kuhn			
Category:	Expressions			
Affected QGIS version:	master	**Regression?:**	Yes	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25304	

Description

If I use the expression

represent_value("fieldname")

on a field that has a relation reference widget assigned, the expression builder complains:

Eval Error:
represent_value: Field not found.

I am certain the the fieldname used exists, as it is also listed in the expression builder in the category "Fields and Values" --> see screenshot
