QGIS Application - Bug report #17422
Processing: overwrite existing outputs does not works in QGIS master

2017-11-08 11:44 AM - Antonio Viscomi

Status:	Closed			
Priority:	High			
Assignee:	Victor Olaya			
Category:	Processing/Core			
Affected QGIS version:	master	**Regression?:**	Yes	
Operating System:	Windows 7 x64	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25319	

Description

Hi,
1) I tried to clip a line shapefile with polygon shapefile,
the output of clipping must overwite an old existing shapefile.
when the clipping process was completed, the clipping output was empty.

2) then I tried to create a new output shapefile of the same clipping
in this case the clipping process outcome with the correct shapefile

this seems to appear with all processes able to overwrite an existing shapefile independently of input data

Regards
