

QGIS Application - Bug report #17476

QGIS master: update SQL layer error if name contains uppercase chars

2017-11-16 11:18 AM - salvatore fiandaca

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	DB Manager	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	Yes	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 25373
Description		
by uploading a postgis vector, in QGIS 2.99, named with Shift characters, if I update SQL layers get an error. method: 1. Load a postgis vector with named uppercase characters; 2. right-click on the layer -> update SQL layer I attach screenshots PS. the problem would be solved by putting the double quotes named with uppercase characters Fine della conversazione in chat Digita un messaggio...
