QGIS Application - Bug report #17528 QGIS 3D view - Where window is docked tilting doesn't work

2017-11-23 06:19 AM - Jeremy Palmer

Status: Closed
Priority: Normal
Assignee: Martin Dobias

Category: 3D

Affected QGIS version:master

Operating System: MacOSX

Pull Request or Patch shapplied:

Crashes QGIS or corrupts data:

Regression?: No

Resolution: duplicate

Copied to github as #: 25425

Description

On MacOSX when the QGIS 3D view is docked with the main QGIS application window the "SHIFT" key modifier doesn't allow tilting.
