

## QGIS Application - Feature request #1754

### Documentation should mention PCRaster map format as supported Raster format

2009-07-04 02:40 AM - ceesPCRaster -

<b>Status:</b>	Closed	
<b>Priority:</b>	Low

<b>Category:</b>	Documentation and Help	
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> fixed
<b>Easy fix?:</b>	No	<b>Copied to github as #:</b> 11814
<b>Description</b>		
<p>The manuals of both 1.1.0 and 1.0.2 do not list PCRaster map format as a GDAL supported format. The software does however have a PCRaster *.map open filter in the GDAL supported Raster formats load dialog. I have tested some PCRaster data and it works great with Quantum GIS.</p> <p>If there are any issues with support of the PCRaster format I like to know that and see if we can resolve them.</p> <p>The PCRaster team is considering to recommend to their users to use Quantum GIS as a PCRaster software companion.</p>

- Resolution set to fixed
- Status changed from Open to Closed

I added PCRaster as supported raster file format to the user guide. It will appear with the next QGIS version 1.2.

thanks for the hint

Otto
