

QGIS Application - Feature request #17660

Merging features/attributes: Allow the use of fields widget in the Merge row

2017-12-08 04:26 PM - Harrissou Santanna

Status:	Open	Resolution: Copied to github as #: 25557
Priority:	Normal	
Assignee:		
Category:	Digitising	
Pull Request or Patch supplied:	Not supplied	
Easy fix?:	No	
Description		
<p>When merging features, it could be nice that in the "Merge attributes/features" dialog that pops up, the last row where user sets the values to apply shows the same widget applied to the fields ie if I use a drop-down, checkbox, ... in the layer for the fields then the "Merge" row should also show these widgets.</p> <p>Note that these widgets are already used for the existing features shown in the dialog</p>
