Description

I don't have any legend under layer's name when I do an heatmap style on my points.

Probably caused by #18474?

#2 - 2018-03-18 10:00 PM - Nyall Dawson

Actually a different issue - heatmaps don't use layer effects. This ticket is blocked by missing support for color ramps (gradients) in legends.

- Status changed from Open to Feedback

Please check if this issue is still valid on QGIS 3.4.5 or 3.6.
