

QGIS Application - Feature request #1769

Font-Sizes and Offset Values should allow non-integer values

2009-07-13 08:27 AM - Andreas Neumann

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	Map Legend	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 11829
Description		
<p>This is not an issue for "Points" units but can be a problem when choosing map units. If you work in large scales it matters a lot if your font is 1 or 2 m in size, and you actually wanted it to be 1.5 map units (m).</p> <p>This applies to the "Labels" tab in the Layer Properties Dialogue:</p> <ul style="list-style-type: none">- Font sizes (esp. when map units are activated)- Position (Offset values - currently restricted to integers)- Data Defined Positions
