

QGIS Application - Bug report #17709

Rule edition window too big for small screen (not resizable)

2017-12-17 10:56 AM - Loïc L'Anton

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: Yes
Operating System:	Windows 7 x64	Easy fix?: No
Pull Request or Patch applied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 25606
Description		
<p>I'm using QGIS on a 19 inches screen, resolution 1360x766. When I open the rule edition window I'm unable to reach the OK button because that window is taller than my screen. The window is not resizable on the "y axis". The only way I've found to click "OK" is to hide the windows taskbar.</p>
