QGIS Application - Bug report #17713
Layer name case doesn't match entered name or filename when creating new or saving new version of layer

2017-12-18 06:24 AM - Patrick Dunford

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	GUI		
Affected QGIS version:	master	**Regression?:**	No
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	invalid
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25610

Description

When I either

Create a new layer, or

Save a layer under a new name, or

Add an existing layer to a project

The case of the name that appears by default in the layer list always has the first letter capitalised regardless of the filename on the disk.

History

#1 - 2018-01-02 07:56 PM - Jürgen Fischer

- Resolution set to invalid

- Status changed from Open to Closed

Used to be optional - now the layer names are always formatted (ie. first letter of each word is turned to uppercase; see

commit:6e31fccc5dc41706b9933a3bd4a11f8d49523840)
