

## QGIS Application - Bug report #1773

### Problems when editing record 0 in the table of attributes

2009-07-13 09:34 AM - Giovanni Manghi

<b>Status:</b>	Closed	
<b>Priority:</b>	Low	
<b>Assignee:</b>	nobody -	
<b>Category:</b>	Data Provider	
<b>Affected QGIS version:</b>		<b>Regression?:</b> No
<b>Operating System:</b>	All	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>		<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>		<b>Copied to github as #:</b> 11833
<b>Description</b>		
<p>When editing the values of the cells of first line of the attribute table, the new values are not immediately refreshed after changing the focus on another cell or (sometimes) after confirming by pressing "enter" or (sometimes) using the "tab" key.</p> <p>As images are worth a 1000 words I have made a small screencast</p> <p><a href="http://www.faunalia.pt/downloads/att_table.mpeg">http://www.faunalia.pt/downloads/att_table.mpeg</a></p>

#### History

#1 - 2009-11-25 05:23 AM - Giovanni Manghi

I still see the same behaviour on trunk 4 months later after having reported the bug. The linked screencast is still available to understand the problem.

#2 - 2009-12-10 09:13 AM - Giovanni Manghi

From #2245:

"1. Open table 2. Start editing 3. Double click any cell withing record 0 4. Edit 5. Click somewhere else, lets say record 1 -> note that edits don't show up 6. Click back on the cell within record 0 -> value shows back up

Weirdly, this is not a problem for any other record."

**#3 - 2009-12-20 03:20 PM - Jürgen Fischer**

- *Resolution set to fixed*
- *Status changed from Open to Closed*

fixed in commit:7f067126 (SVN r12556).
