<b>Easy fix?:</b>	Yes	
<b>Description</b>		
<p>The next feature would be useful:</p> <p>Qgis attribute tables in composer can only be sorted by visible fields. But there are cases when i don't want the field wich the sorting based on to be visible.</p> <p>Qgis neither lets write random expressions at the sort table window, only written, already visible field expressions can be used for sorting table rows.</p>
