QGIS Application - Bug report #17791
libqscintilla2-qt5-13 not available on Buster for 2.99.0+git20180104+d69f932+99unstable

2018-01-04 07:25 PM - Patrick Dunford

Status:	Closed			
Priority:	Normal			
Assignee:	Patrick Dunford			
Category:	Build/Install			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:	Debian 10	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	invalid	
Crashes QGIS or corrupts data:		**Copied to github as #:**	25687	

Description

The above package cannot be installed on buster because it is not available either from the qgis repositories or the Debian repositories.

There has not been an issue with obtaining the required packages for Qgis 2.99 unstable installation on Buster from either the Debian Buster or Debian Testing repositories up to the previous release of 2.99 2 days ago.

Is there an alternative repository from which this package can be obtained.

History

#1 - 2018-01-04 11:19 PM - Patrick Dunford

- Assignee set to Patrick Dunford

- Status changed from Open to Closed

was found in Debian unstable (instead of testing) and required a few other packages manual install. This will happen from time to time on a testing distro.

#2 - 2018-02-22 09:14 AM - Giovanni Manghi

- Resolution set to invalid
