QGIS Application - Bug report #17879
Field of type interval only shown in DB Manager

2018-01-18 12:29 AM - Nikolay Lebedev

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Data Provider/PostGIS			
Affected QGIS version:	2.18.15		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	no timely feedback
Crashes QGIS or corrupts data:			**Copied to github as #:**	25774

Description

When adding a postgis table with field of type `interval` it doesn't show up in layer attribute table or fields properties.
But in DB Manager it's displayed both in a field list and in a table itself - all values are visible.
