

QGIS Application - Bug report #17881

Processing options is not showing all providers

2018-01-18 05:14 AM - Etienne Trimaille

Status:	Closed	
Priority:	Normal	
Assignee:	Alexander Bruy	
Category:	Processing/GUI	
Affected QGIS version:	master	Regression?: Yes
Operating System:	unspecified	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 25776
Description As we can see on my screenshot: <ul style="list-style-type: none">- Providers from plugins are not shown in the Processing options but they are visible in the Toolbox. On my screenshot, it's missing Buffer and QuickOSM.- If I disable a provider from Processing options, it still displayed in the processing toolbox. On my screenshot, Saga and Grass are disabled.

- Assignee changed from Victor Olaya to Alexander Bruy
- Operating System deleted (macOS)

I haven't looked at the code of these providers, but I'm pretty sure that they simply does not have any settings. As result they are not listed in the Processing options.

- File Screen Shot 2018-01-23 at 10.01.24.png added

In QGIS 2, there is the checkbox `activate` for all providers, even if there isn't custom settings. So it's not the same behavior as in QGIS 3. See my new screenshot for QGIS 2.

I will try to add a custom setting in my plugin to see if it's displayed in QGIS3.

#3 - 2018-01-23 08:17 AM - Alexander Bruy

There were lot of refactoring and API breaks in QGIS 3. I would not expect exact behaviour. You **need** to define settings.

#4 - 2018-01-23 09:00 AM - Alexander Bruy

- Status changed from Open to Closed

- % Done changed from 0 to 100

Applied in changeset commit:qgis|d7e18131808c3a622e5597cdf5608a28136755e7.

#5 - 2018-02-21 09:50 PM - Giovanni Manghi
- Resolution set to fixed/implemented
