

QGIS Application - Feature request #17969

[Digitising] Add ability to edit Z and M values from advanced digitizing panel

2018-01-26 11:27 AM - Harrissou Santanna

Status:	Open	Resolution: Copied to github as #: 25865
Priority:	Normal	
Assignee:		
Category:	Digitising	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>While looking for some old discussion on vertex editor, I found http://osgeo-org.1560.x6.nabble.com/QGIS-Developer-QGIS-3-vertex-editor-problems-td5336971.html in which Regis said about the vertex editor</p> <div><p><i>The use case I know is more typing z / m values easily than entering XY.</i></p><p><i>X/Y typing is not so difficult using the advanced editor panel (just type "x" then paste the X, "y" then paste) . It requires less mouse clicks for sure than the node editor panel.</i></p><p><i>We maybe could add the z and m SpinBox with z and m shortcuts too there.</i></p></div> <p>Given that it looks like a good idea to me, here's the feature request...</p>
