

QGIS Application - Bug report #17972

Layout of Delimited Text import dialog wastes vertical space

2018-01-26 03:58 PM - Johannes Kroeger

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	Unknown	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 25868
Description		
<p>I can <i>barely</i> fit the new Delimited Text import dialog onto a 1050px high screen.</p> <p>While the old dialog was very dense and potentially too confusion, the new one is way less efficient to use.</p> <p>Maybe rearrange the Record and Field Options to sit side-by-side? And have the Layer Options in one single line?</p>
